CAREER OBJECTIVE

Motivated and detail-oriented Computer Science Engineering student with a strong foundation in **software development, programming logic, and web technologies**. Skilled in developing end-to-end solutions using modern development tools and frameworks. Seeking a **challenging internship or entry-level software developer** position to apply academic knowledge, enhance practical skills, and contribute to innovative projects.

EDUCATION

B.Tech in Computer Science and Engineering MGM's College of Engineering, Nanded, Maharashtra CGPA: 6.8	2022 – Present
Higher Secondary Certificate (HSC) Yousufiya Junior College, Nanded, Maharashtra Percentage: 57.67%	2022
Secondary School Certificate (SSC) Yousufiya High School, Nanded, Maharashtra Percentage: 81.40%	2020

CORE COMPETENCIES

- Data Structures & Algorithms (DSA)
- Object-Oriented Programming (OOP)
- Frontend & Backend Web Development
- Database Management Systems (DBMS)
- Restful API Design and Integration
- Operating Systems & Computer Networks
- Basics of Artificial Intelligence & Machine Learning
- Version Control (Git, GitHub)

ACADEMIC PROJECTS

Online Aptitude Practice and Test Website

- Developed an interactive web-based platform for practicing aptitude questions and conducting timed tests across multiple categories and difficulty levels.
- Implemented user authentication and role-based access for students and administrators.
- Built dynamic question selection, timer-based exams, and automated result evaluation with detailed feedback.
- Integrated performance analytics with score charts, accuracy tracking, and solution explanations.
- Optimized database design for efficient question storage, randomization, and test result retrieval.
- **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL

Online Sweet Mart Website

- Developed a web-based platform for a sweet mart to display products and accept customer orders online.
- Created an interactive order form for users to select sweets and provide delivery address details.
- Implemented backend functionality to store and manage customer orders securely in the database.
- Designed a clean, responsive interface to ensure accessibility across desktop and mobile devices.
- **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL

TECHNICAL SKILLS

- **Programming Languages:** C, Java, Python, PHP, SQL
- **Web Development:** HTML5, CSS3, JavaScript, Bootstrap
- **Database Systems:** MySQL, MongoDB
- **Developer Tools:** Visual Studio Code, XAMPP, Git, GitHub
- **Core Competencies:** Data Structures and Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, Basics of AI & ML

CERTIFICATIONS

- Java Foundation Program – Infosys Springboard (Dec 2024)
- Python Foundation Program – Infosys Springboard (Oct 2024)
